

PRESS RELEASE

## **NEXT LEVEL SECURITY SYSTEMS NETWORKED SECURITY SOLUTIONS NOW AVAILABLE TO PSA MEMBERS**

*Next Level joins PSA Security Network as Vendor Partner*

Carlsbad, Calif. – February 16, 2011 – [Next Level Security Systems](#), a developer of a new breed of unified, networked security solutions, has announced that its full product line is now available to members of PSA Security Network, the world’s largest electronic cooperative representing security system integrators. Next Level’s technologies are available to PSA members through CSC’s worldwide distribution network.

The PSA Security Network is an organization that encompasses more than 200 electronic security systems integrators and aligns them with more than 250 vendor partners. The PSA Network is responsible for more than \$2 billion in annual security systems design, installation, integration and maintenance of access control, video surveillance, intrusion detection, fire, and life safety systems. By leveraging the power of the PSA Security Network and CSC, Next Level Security Systems is able to deliver its solutions to an expanded customer base.

“IP-based security technologies bring substantial value and advanced capabilities to PSA members and their customers,” said Bill Bozeman, president and CEO, PSA. “Next Level Security Systems’ solutions enhance value due to its technology innovations that ease complex installations and maximize customer value. We are pleased to make its portfolio of IP-based security solutions available to our integrator community.”

The NLSS Gateway is a unified, networked security platform that integrates video management software, IP access control, video analytics and intrusion into a single platform. This [unique approach](#) allows data from these traditionally separate subsystems to be correlated without custom integration, while combined data is available to operators through a single, intuitive user interface.

“We are excited to offer our integrated IP solutions to the industry leading integrators part of PSA that are knowledgeable about the inherent value of networked-based security solutions,” said Peter Jankowski, Chairman and CEO, Next Level Security Systems. “We can deliver IP technologies that maximize security for end customers as well as offer services that build valuable service revenue for integrators.”

### **About Next Level Security Systems**

Next Level Security Systems is a physical security company focused on developing a new breed of unified networked security solutions. Next Level's products combine the performance, sophistication and functionality of enterprise-class security systems into a compact, unified and affordable solution. Led by a team of seasoned security executives and world-class engineers, Next Level was built around the core belief that exceptional performance and advanced technology should be both easy-to-use and affordable. The Next Level team's mission is to develop advanced hardware and software products that set new standards in performance vs. cost.
