

PRESS RELEASE

**NEXT LEVEL SECURITY SYSTEMS HONORED WITH
2011 ESX MAXIMUM IMPACT AWARD**

*The NLSS Gateway – Remote Managed Service Package takes top prize in
Security as a Service category at 2011 ESX Expo*

Charlotte, N.C. – June 8, 2011 – [Next Level Security Systems](#), a developer of a new breed of unified, networked security solutions, announces today it has been honored as the winner of the Maximum Impact Award in the Security as a Service category for the NLSS Gateway – Managed Service Package at the 2011 Electronic Security Expo.

“We are pleased to be the recipient of this Maximum Impact Award from the Electronic Security Association,” said Peter Jankowski, Chairman and CEO, Next Level Security Systems. “We are committed to leveraging the power of remote management services to enable users to manage their security systems from anywhere in the world, while providing the reseller community with exciting new revenue opportunities.”

The [ESX Maximum Impact Awards](#) is the first program designed to recognize products for their impact on the business of integration and monitoring companies. An expert panel of judges evaluated both new and recently shipped products for their ability to increase revenues, profits and company value.

Next Level’s [Remote Management Service](#) package is available in conjunction with [NLSS Gateway](#), a unified security platform that combines video management,

access control and video analytics into single platform. Because the system is unified, users can easily operate their system through a Web-enabled device to view live or recorded video, control and configure cameras, doors and permissions, and develop reports directly from a secure browser.

NLSS Remote Management Services provide resellers with a comprehensive yet cost-effective recurring revenue model. Its innovative features such as multi-site management, global access control settings, e-mail message alerts, VoIP support, remote backup and configuration replication can be resold in parts and priced accordingly.

For further information on Next Level's comprehensive product line, visit booth #355 at the 2011 ESX Expo in Charlotte or visit www.nlss.com.

About Next Level Security Systems

Next Level Security Systems is a physical security company focused on developing a new breed of unified networked security solutions. Next Level's products combine the performance, sophistication and functionality of enterprise-class security systems into a compact, unified and affordable solution. Led by a team of seasoned security executives and world-class engineers, Next Level was built around the core belief that exceptional performance and advanced technology should be both easy-to-use and affordable. The Next Level team's mission is to develop advanced hardware and software products that set new standards in performance vs. cost.
