

PRESS RELEASE

Next Level Security Systems Honored with Two ESX Maximum Impact Awards
*The NLSS Gateway Micro wins overall award and
integrated security solutions category at 2010 ESX Expo*

Pittsburgh – June 17, 2010 – Next Level Security Systems (www.nlss.com), a developer of a new breed of unified, networked security solutions, was honored as the overall winner of the Best Maximum Impact Award for the NLSS Gateway Micro at the 2010 Electronic Security Expo. Furthermore, the NLSS Gateway Micro was also honored with the Maximum Impact Award in the Services: Integrated Security Solutions category.

“The Maximum Impact Awards recognize that Next Level Security Systems is pushing the envelope in the development of integrated security solutions,” said Peter Jankowski, Chairman and CEO, Next Level Security Systems. “This award also highlights the support the alarm and integration communities have of solutions that simplify the installation process and dramatically improve efficiency.”

The NLSS Gateway Micro is the compact version of the NLSS Gateway. The platform combines essential elements of a physical security solution, including video management, access control, video analytics and Voice over IP, into one appliance to provide seamless communication between systems. The NLSS Gateway Micro supports multiple streams of digital video in various resolutions and formats, and supports access control panels and readers up to 16 doors. The NLSS Gateway Micro also offers key features such as auto discovery and auto provisioning of edge devices to simplify the installation process. The NLSS Gateway Micro also includes a wide range of video analytics such as people counting, entry and exit monitoring, trip wire, loitering and face grabbing.

The ESX Maximum Impact Awards is the first program designed to recognize products for their impact on the business of integration and monitoring companies. An expert panel of judges evaluates both new and recently shipped products for their ability to increase revenues, profits and company value.

The NLSS Gateway Micro is part of Next Level’s broad family of unified and intuitive networked solutions including the NLSS Gateway, NLSS HD Media Decoder, and NLSS MultiTouch Console. For further information on Next Level’s comprehensive product line, visit booth #305 at the 2010 ESX Expo in Pittsburgh or visit <http://www.nlss.com>.

About Next Level Security Systems

Next Level Security Systems is a physical security company focused on developing a new breed of unified networked security solutions. Next Level’s products combine the performance, sophistication and functionality of enterprise-class security systems into a compact, unified and

affordable solution. Led by a team of seasoned security executives and world-class engineers, Next Level was built around the core belief that exceptional performance and advanced technology should be both easy-to-use and affordable. The Next Level team's mission is to develop advanced hardware and software products that set new standards in performance vs. cost. For more information on Next Level's groundbreaking technologies, visit <http://www.nlss.com>.
