

**NEXT LEVEL SECURITY SYSTEMS SHOWCASES  
OPEN PLATFORM TECHNOLOGIES AT ISC WEST**  
*Company highlights evolutions to NextConnect technology  
and Gateway software at leading security industry trade show*

**Las Vegas** – April 1, 2013 – [Next Level Security Systems](#), a provider of a new breed of unified, networked security solutions, will highlight the latest evolution of its open platform, IP-based security technologies at ISC West 2013, being held April 10-12, 2013, at the Sands Convention Center.

At Booth #10107, Next Level will showcase its entire line of unified security management platforms, the Gateway 500, 3000, 4000 and 5000. Conference attendees will also receive a preview of the company's upcoming upgrade to the Gateway software package, a demonstration of its enhanced analytics capabilities, including audio analytics and gunshot detection, and see updates to NLSS Cloud Services and NextConnect™, its unique peer-to-peer technology that efficiently streams live video to multiple users simultaneously.

“Our cutting-edge technologies quickly enable users to gather critical security data, customize the way it is received and make informed decisions based on valuable data points,” said Peter Jankowski, Chairman and CEO, Next Level Security Systems. “This approach enables our customers to be more proactive with their security programs. It is our goal to deliver technologies that enable customers to view the entire scope of their security infrastructure to be more safe and secure.”

**Conference events**

ISC West attendees are invited to view demonstrations of Next Level’s technologies and meet the executive team during the company’s annual opening day cocktail reception from 3 p.m. to 5 p.m., Wednesday, April 10 at the Next Level booth, #10107.

Next Level will also offer the chance to win a NLSS Gateway 500 during the conference. Conference visitors are invited to visit the Next Level booth throughout the event to enter the giveaway.

In an educational panel discussion titled, “Stay Connected: Leveraging the Cloud and Mobile Applications for Enhanced Security,” Jumbi Edulbehram, Vice President of Business Development, and Kevin Dailey, President, Unified Physical Security, will discuss innovations in cloud security and mobile security applications. The panel will be held in Room 305 at the Sands Convention Center at 7:30 a.m., Wednesday, April 10.

### **About Next Level Security Systems**

Next Level Security Systems is a physical security company delivering a new breed of unified networked security technologies. The NLSS Gateway, Next Level's flagship product, is an award-winning, IP-based security management platform that integrates video management, access control, video analytics and remote management into a single appliance. It is successfully used in the retail, commercial, education, transportation and government markets. All of Next Level's products, sold through distribution worldwide, combine the performance, sophistication and functionality of enterprise-class security systems into a compact, unified and affordable solution.
